

Updates for Migraine Management in Primary Care

Don't miss this important CME-certified grand rounds activity!

Day, Month XX, 2018

X:00 – X:00 AM/PM

Location

Building, Floor, Room

Presented by:

JOHN P. PHYSICIAN, MD

Physician's Title Goes Here

Sometimes Runs on to a Second Line

Name of Institution on This Line

Sometimes it Runs Over to Another Line

Name of City, ST

Steering Committee:

M. SUSAN BURKE, MD, FACP

Clinical Associate Professor of Medicine

Sidney Kimmel Medical College at Thomas Jefferson University

Senior Advisor, Lankenau Medical Associates

Lankenau Medical Center

Wynnewood, PA

JACK SCHIM, MD

Co-Director, The Headache Center of Southern California

Carlsbad, CA

CHRISTOPHER DAMIANO, DO, MPH

PGY-3 Internal Medicine

Lankenau Medical Center

Wynnewood, PA

MATTHEW DELMONICO, DO

Chief Resident, Internal Medicine Program

Lankenau Medical Center

Wynnewood, PA

UPDATES FOR MIGRAINE MANAGEMENT IN PRIMARY CARE

PROGRAM DESCRIPTION

Based solely on clinical evaluation, the diagnosis of migraine can be challenging for clinicians. Its management typically requires lifestyle and trigger management, along with acute, preventive, or combination treatments. Recent migraine research has focused on the role of calcitonin gene-related peptide (CGRP), which is released in significant amounts during an acute attack and is chronically elevated in patients with chronic migraine.

The development of novel medications targeting the CGRP pathway could offer an effective option for patients with acute and chronic migraine. Residents and fellows will play an increasingly important role in identifying patients with migraine headache and ensuring they are properly diagnosed and appropriately treated. The CME activity, **Updates for Migraine Management in Primary Care**, will provide these clinicians with the latest evidence-based strategies and emerging therapies for migraine management.

EDUCATIONAL OBJECTIVES

At the conclusion of this activity, participants should be able to demonstrate the ability to:

- Examine the epidemiology, differential diagnosis, and impact of migraine within the primary-care patient population
- Describe the pathophysiology of migraine, including the role of calcitonin gene-related peptide (CGRP)
- Delineate current standards of pharmacologic and nonpharmacologic management for the preventive and acute management of migraine
- Assess clinical safety and efficacy data for emerging therapeutic agents for the prevention and treatment of migraines

TARGET AUDIENCE

This activity is intended for primary care residents, fellows, general practitioners, and allied healthcare providers who treat patients at risk for or who have migraine.

SPECIAL SERVICES

Event staff will be glad to assist you with any

special needs. Please contact the program administrator at least five days prior to the program.

ACCREDITATION

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of the Potomac Center for Medical Education and Rockpointe. The Potomac Center for Medical Education is accredited by the ACCME to provide continuing medical education for physicians.

For information about the accreditation of this program, please email: contact@potomacme.org.

CREDIT DESIGNATION

The Potomac Center for Medical Education designates this live activity for a maximum of 1.0 *AMA PRA Category 1 Credit™*. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

There is no fee to participate in this educational activity.

DISCLOSURE INFORMATION

The Potomac Center for Medical Education (PCME) adheres to the policies and guidelines, including the Standards for Commercial Support, set forth to providers by the Accreditation Council for Continuing Medical Education (ACCME) and all other professional organizations, as applicable, stating those activities where continuing education credits are awarded must be balanced, independent, objective, and scientifically rigorous.

All persons in a position to control the content of a continuing medical education program provided by PCME are required to disclose any relevant financial relationships with any commercial interest to PCME as well as to learners. All conflicts of interest are identified and resolved by PCME in accordance with the Standards for Commercial Support in advance of delivery of the activity to learners.

Disclosures will be made known to the participants prior to the activity.

The content of this activity was vetted by an external reviewer to assure objectivity and that the activity is free of commercial bias.
